PROFESSIONAL EXPERIENCE

Abracon (Remote Software Developer) - *Austin, TX*

2019 Jan – 2022 Jun

- Modernized systems by refactoring old code, helped migrate apps off local servers into the **AWS Cloud** and introduce a GIT pipeline.
- Increased sales department productivity and communication by creating a sales lead management tool using **Laravel** that managed global leads for our sales team.
- Decreased customer service manual work by over 80 hours a month by using **Laravel** to automate and organize merchandise return requests from customers.

Projects

FITT Finder (Remote Software Developer) - *Austin, TX*

2018 Oct – 2018 Dec

- Created a custom blog for FITT Finder by writing **PHP** plugins and themes in WordPress.

WalkOut (Software Developer) - *Austin, TX*

2016 Aug – 2016 Nov

- Created the front end of a single-page app using; **JavaScript**, Vue.js, MapBox, open street maps, Bootstrap, and Google Firebase.

CERTIFICATION

Adobe Certified Associate

2016

- UI/UX design using Adobe Photoshop
